This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

In the 1st Essay, it is critically argued from texts of Holy Scripture, that False-worship took its rise after the Flood; from a curiosity after knowledge which "the Creator had not granted to Man;" which, however, Men hoped to gain by religious addresses to "inferior Spirits" of whose Fall they were aware even, before the Flood, "the Sons of God having taken wives of the Daughters of Men."

In the 2nd Essay, "the Cause" of contemporary Spiritual Manifestations is considered, without its being determined; only it is concluded, "that we should not deal with" [the facts,] separate from Religion.

Thomæ Mori, [English text] accedunt Mori Epistola de Scholasticis, quibusdam trojanos sese appellantibus; Academiæ Oxoniensis epistolæ et orationes aliquot multæ. Anonymi Chronicon Godstovianum, &c. edidit T. Hearnius, qui et notas subjecit. Oxon, 1716. [with] J. Pointer's account of a Roman Pavement at Stansfield, [and] J. Woodward's account of some Roman and other antiquities lately digged up near Bishops-gate, London, 1713.

A collation is made of the printed text, with a M. S. copy, by "J. Lewis," with the various readings very distinctly written in the margin: this gives rise to the following note (M.S.) on the cover.

"The curiosity of this copy above any other is that it contains the "variations of a M.S. of Roper's of the time of Henry VIIIth, much "superior to the one Hearne printed from, as an examination of "the various readings will shew."

Vol. 35, [Sprotti Chronica], p. 330–333, repeats "things written at the beginning and end of Sir T. More's Works," which book belonged once to the Ropers of Eltham:" they are principally genealogical of the Ropers or Roopers: likewise vol. 61 p. 744-749, has more matter supplementary.

Vol. 34, [Camdeni Annales 3,] at the bottom of p. 1005 is this notice, In epistolis et orationibus Acad. Oxon. lacunam observavimus 6 paginarum, quam è Bibliotheca Harleiana tandam supplevit, &c. Hunc autem in modum se habet hocce supplementum, p. 72, inserendum. *Vide* p. 1006–1012, consisting in papers, by R. Dudleio, Com. Leycestr. and T. Younge, Episcopo Ebor.

" XXX. [The above two works,] Editio secunda. Oxonii, 1745. This edition is differing from the former [only] in the omission of p. 37—40. The want which may be seen of Leland's Nænia, &c., is an imperfection of the copy.

The Preface, although professedly an apology, is a powerful Satire. The editor must be surely one who was complying with the new Allegiance.

An answer to a book, intituled, Argumentum Anti Normanicum. The 3rd. An exact History of the succession of the Crown of England: together with an Appendix, containing several records, and a series of Parliaments, before and after the Conquest, to the end of the Reign of Henry III.; and, a Glossary of Words in our antient Records, Laws, &c. Folio. London, 1684.

The Appendix shews the relation of the Crown to its tenants, to have made the basis for both Civil and Military service of the Crown. It includes a Statute regulating "the succession to the Crown of Scotland, made in 1373."

Brady, Doctor R. A complete History of England, from the first entrance of the Romans, unto the end of the Reign of Henry III,; a continuation, containing the Lives and Reigns of Edwards I., II. and III., and Richard II. 2 vols. Folio. London, 1685-1700.

The 1st vol. is dedicated to King James II. The general preface shews the derivation of the early forms of Government and of the Law in the Land; and a large Appendix, contains many Papers illustrative of the same topics, and confirmatory of the Author's version of the History, with King John's Great Charter, collated with the M. S. in Bennet College Library, &c. The Author in his title mentions these other particulars of his History, viz: "The differences between the Secular and Ecclesiastic Powers, between the Barons and our antient Kings; our Foreign Wars, the Conquest of Ireland, &c.;" all delivered in plain matter of fact, often, indeed, a translation from the old Chronicles.

The 2nd. vol. has an "Appendix:" containing many State Papers, which relate to the discords of the King and the Barons, and the Wars of the English in France; of these a large number are in old French.

Tyrrell, James. The general History of England, as well Ecclesiastical as Civil, from the earliest accounts of Time; taken from the most antient Records, Manuscripts and Histories, from the beginning of the Reign of William I., to the end of the Reign of Richard II. 3 vols., bound in 5. Folio. London, 1696-1704.

As also, an Appendix, representing the most material arguments and authorities for and against the antiquity of the Commons summoned to Parliament before the 49th Henry III; with a disquisition whether the Commons had any other Representatives in Parliament than the Tenants in Capite before?

The title of the 1st volume makes the final period of the History, "to the Reign of his present Majesty King William," but it did not proceed beyond Henry III. The Author, in his Preface, speaks of Doctor Brady's History respectfully, but adds that he "will differ from him, where the truth of our History as well as our ancient Laws and Constitutions will justify." The two Authors indeed were rivals.

Vol. 1. Contains also, a general Introduction (of great length) relating to the State of Government and Law in the British and Anglo-Saxon Times.

" 2. Has its own Preface, explaining and vindicating Tyrrell's way of writing the History. The Introduction examines "the Title by Conquest of William I." The case of the continuance, or abrogation, of the Anglo-Saxon Laws and usages. The case of succession to the Crown, and of exemptions of the Clergy, &c. Vol. II.—Part 2nd. (bound, vol. 3,) has an Appendix, containing: "the several Charters of Liberties granted by King's of the Norman Race," &c.

" 3. Part 1st, Preface: Introduction, designed to acquaint the reader "with alterations, or new institutions, in the Civil and Ecclesiastical Govern. ment," contemporary with the History. Vol. III., part 2nd. The History concluded; the Appendix, with a preface, which names the principal writers, of different views to the author, whom he controverts herein. Both Brady and Tyrrell used excellent old Authors, of whom they give often a critical account.

**Piers Ploughman.** The Vision and Creed of,—Edited from MS., with a Historical Introduction, Notes, and a Glossary, by T. Wright, F.S.A. Second and revised edition. 2 vols. 8vo. London, 1856.

**Oldmixon**, John. The history of England, during the Reigns of Henry VIII., Edward VI., Queens Mary, and Elizabeth; including the history of the Reformation of the Churches of England and Scotland; wherein little use has been made of Fuller, Heylin, Burnet, Collier, &c. The author's design being, to shew, as well, What it might have been, in the opinion of the first Reformers,—As what it was. Also; including a history of Mary, Queen of Scots. Folio. London, 1739.

In his Preface, the author censures other authors who had written on the same events. Concerning his own work, he says:—"In my history of the Reformation, I have thrown out so much of what related to Church-men, rather than to Church matters, that I have not therewith much interrupted the course of the Civil History."

The volume concludes with the title of a work he had postponed to publish "almost 10 years;" and which, it seems, never was published; viz.:—

"The History of Christianity; being an attempt to prove the perpetuity of the Faith in its Purity, through all the dark ages of Popery, to the Reformation; interspersed with civil history and remarks on Ecclesiastical historians: in seven Books."

———— The history of England, during the Reigns of the Royal House of Stuart; wherein, are several original letters from Charles II., James II., Oliver Cromwell, &c., as also, Lord Saville's forg'd letter of invitation, which brought the Scots into England, (1640) —never before published: [with] some account of the liberties taken with Clarendon's history before it came to the Press, &c. Folio. London, 1730.

———— The history of England, during the Reigns of William and Mary, Queen Anne, and George I.; being the sequel of the reigns of the Stuarts. It contains a very exact account of the debates in Parliament, and short extracts of remarkable political pieces, of [the] time; to set forth the designs of the enemies to our Constitution; [with] a vindication of the author, against the charge of partiality. Folio. London, 1735.

The author finds "the Enemies of the Constitution" from the beginning of his history, to be "those men—of a flaming zeal, for what [they] were pleased to call the Church." He finds, too, in the reputed "Rebellion" our "ancestors' brave and necessary defence of their Religion and Liberty." *Vide* the Dedication, p. iv., of the 1st. vol. To each vol., a Preface is attached; which is controversial on the subject of other histories of these times.

Ordnance Survey of Great Britain and Ireland. Series of Maps engraved from the,—and published under the authority of the Board of Ordnance. Among these are included, the Geological Maps anp Sections; which consist of the maps of the Ordnance Survey, geologically surveyed and coloured, by the Geological Survey of Great Britain, by authority of Her Majesty's Government, under the superintendence of Sir Roderick I. Murchison, Director General of the Geological Surveys of the United Kingdom. The various formations are distinctly traced and coloured in all their geological sub-divisions. The survey has not yet been completed; but nearly 3,000 separate sheets have been published, up to this time, which have been classified according to Counties, and are deposited in Three large Cases, made for the purpose, in the Library; on the inner doors of which, Index Maps are placed, to facilitate reference to this immense Collection; which was presented to the Legislature by Her Majesty's Government.

So far as yet completed, the Survey includes maps of the whole of Ireland, several counties, and large towns in England and Scotland, on a scale of six inches to a mile, and of nearly the whole of England, and parts of Scotland and Ireland, on a one inch scale. The one and six-inch maps are to be continued for other counties; and large towns will in future be mapped on a scale of an inch to every forty feet. Plans of all the cultivated districts in the country will also, in future, be made upon a scale of about twenty-five inches to a mile.

This edition was issued "nearly 20 years" after the "last volume" of the first edition was published: the Author meanwhile engaged himself in "correcting errors &c." and preparing "descriptions of every new discovery in that branch;" he acknowledges too, "the great assistance afforded "by the labours of M. Temminck of Amsterdam, whose views have been "directed to the same point." To have published his further collections in the way of additional supplements, he says, would have "embarassed the whole" matter. On this account he "resolved to begin this work, as it "were anew, and so to blend the old with the new matter, as to give the "observations and additions of many years at one view" and in this way the present is improved upon the former edition.

"Je commence mon ouvrage par un tableau historique de l'état civil et politique "de la Grèce et de l'Italie.

"Après avoir ainsi présenté ce tableau, j'entre en matière; et j'offre successi- "sivement l'histoire de l'architecture, celle de la sculpture, et celle de la "peinture.

"Ce que les historiens des beaux-arts se sont assez volontiers contentés de dire, "je voulais le montrer dans mon livre. Là c'était surtout les monumens qui "devaient parler; je ne me chargeai que d'écrire sous leur dictée, etc.

"Les planches de mon ouvrage sont au nombre de 325, dont 73 appartiennent à "l'architecture, 48 à la sculpture, et 204 à la peinture. Les monuments "qu'elles représentent, excèdent le nombre de 1400, et plus de 700 sont "inédits.

**D'Agincourt, J. B. L. G. Seroux.** Histoire de l'art, etc.—(Continuation).

" Il était indispensable de les accompagner d'une table analytique des planches " disposées suivant le même ordre que celles-ci ; et contenant, outre l'indi- " cation précise sur chaque monument, une foule de documents précieux, et " de détails importants.

" Les discours historiques sont au nombre de trois, un pour chaque art. Une " introduction y prend l'art à sa naissance, et le suit jusqu'à l'époque de sa " plus grande perfection.

" Bientôt le déclin commence ; la décadence le suit, etc.

" La première partie de chaque discours embrasse, depuis le IVème jusqu'à la " dernière moitié du XIIIème. La seconde partie est consacrée à l'étude " de l'époque de la renaissance, que je distingue soigneusement de celle du " renouvellement, etc. Enfin la marche de l'art s'est affermie. J'ai employé la " troisième et dernière partie des discours à suivre les progrès de ce renou- " vellement jusqu'à la brillante époque du XVIème siècle, etc.

" Arrivé dans l'histoire de chaque art, au terme de ma carrière, je rappelle, dans " un résumé général, les faits les plus saillants, etc." *Préface de l'ouvrage.*

executed from time to time, and where they have failed, the causes of their failure are explained. By this means, we obtain the results of experience; by knowing the causes which have produced certain effects, we can apply them to other similar cases: and, in order to derive the greatest advantage from each example, conclusions and general principles are deduced in conformity with them. The same plan is pursued as regards the particular kind of workmanship and materials, best adapted to each example, &c., not omitting the important item of cost."

**Proceedings of the Philological Society for 1842-43, to 1852-3.** 6 vols. 8vo. London, 1854.

There will be found in the variety of papers contained in these volumes, some which respect the attribute of expressiveness of Languages; and some, the general rules which give them form and perfection ; the histories of particular languages and dialects, their remote or close resemblances, and their combinations; their Root-words, their Grammars, Orthography and Syntax specifically ; their vocabularies and distinguishing idioms ; with Treatises on particular inscriptions, names, and words, and dissertations on Alphabets.

The English Language, of all, is most largely treated on ; its history is derived from times before the Saxons' entry into Britain ; their admissions of many names and words from the Welsh, are exemplified, and some dialects of English and Welsh are explained.

The Greek and Latin are largely considered, with discussions on their grammatical and poetical Rules, and a Report upon, and examination of some ancient remains lately recovered by the learned.

Several papers concern the class of Indo-European Languages.

There are particular Notices of the Slavonic Dialects, the Magyar, the Lapp and Finn Tongues, and the Provincialisms of Holland and Friesland ; also, some on the structure of Sanskrit, and concerning the European Grammars and Lexicons of Sanskrit ; with papers on the Chinese Roots and the written language of China.

Numerous African Languages are noticed, (the Abyssinian in particular.) Two Languages of New Zealand are included, and the Languages of many Indian Tribes of North and South America, with some vocabularies, and these occasionally comparative of various Languages.

Special Ethnographical considerations are made known, and some historical facts are ascertained.

Vol. VI. contains, a Circassian, English, and Turkish Dictionar . (Title at length, elsewhere.)
